

HCSA DEVELOPMENT PROGRAMME

FOR PROCUREMENT & SUPPLY CHAIN SPECIALISTS

Project Management Essentials

Virtual Training Course - 1 Day

Skills Level: 2 Practiced

Number of places: 25

Develop your essential project management skills to ensure you can lead a small scale project from start, to successful finish.

You will gain the ability to confidently plan and manage your project and have the basic tools to keep it on track.

Change Management Essentials

Virtual Training Course - 1 Day

Skills Level: 2 Practiced

Number of places: 25

Gain insights on how to engage and implement new products or change services so that you have the cultural behaviours and ways of working needed to embed and sustain change.

You will gain the ability to apply change management models, methods and tools to ensure the benefits are achieved.

Introduction to Benefits & Contracts Management

Virtual Training Course - Half Day

Skills Level: 1 Awareness

Number of places: 16

Learn to identify, plan, measure and monitor benefits from projects and change to ensure that contractors and suppliers deliver the expected outcomes.

You will gain the knowledge to ensure contracts have clear and effective benefits articulated, and to support the project or project team to ensure they are managed and monitored throughout the contract duration.

Leadership Projects & Change

Virtual Training Course - Half Day

Skills Level: 2 Practiced

Number of places: 12

Strategic leadership requires excellent relationship building with SROs and Investment Boards to ensure that robust procurement and supply chain approaches are in place.

Effectively engage change investment and delivery leadership to ensure a strategic approach to procurement planning and delivery, in turn ensuring value for money and accountability maturity growth.

Introduction to Risk Management

Virtual Training Course - Half Day

Skills Level: 1 Awareness

Number of places: 25

Discover the key concepts of risk management in this half-day online course, learning how to identify, analyse, and mitigate risks in procurement and project environments.

Confidently plan and mitigate risks in procurement and contract management delivery.
